RE: **Letter of Recommendation**

To Who It May Concern:

I am writing this letter to recommend Gordon Contracting, for additional construction services for future prospective clients. I have had the pleasure of working directly with their firm on a number of United States Postal Service projects in the past and most recently on an Exterior Masonry Repair project in Rockland, Maine.

Gordon Contracting's attention to detail and quality on a number of occasions had made our projects run more smoothly during the entire construction duration, which is a testament to their outstanding communication skills while completing these projects for the United States Postal Service.

Scheduling within the construction industry is typically an art form in itself and the Gordon Contracting team, has been able to effectively meet project schedule and expectations. They, along with their crews, were able to quickly adapt to schedule changes in order to keep the entire team on time and aligned with the overall project schedule. In addition, Gordon Contracting has been exceptionally accommodating when dealing with unforeseen conditions and potential change orders.

Please consider Gordon Contracting for your next construction services needs. I recommend this company and look forward to working with them again in the future.

Sincerely,

WBRC Architects / Engineers
