To Whom It May Concern:

We have used Gordon Contracting do several paving and on-site work projects over the last two years. These included Paving (over 1,500 tons), excavation, catch basin/structure work, Granite Curbing, Slip-Form Concrete Curbing, Line Striping, Erosion Control, and Traffic Control.

All the work performed was outstanding. The largest paving project at our main office building was executed flawlessly. Despite a high volume of parking and traffic to contend with, the project had minimal impact on our operations and the result was exceptional. Brian Howard is great to work with and accommodated all our requirements.

It is a pleasure to recommend Gordon Contracting for any of those projects sited above.

Sincerely,

Rob Carmichael
